

## Stock-Taking on Integrated Coastal Zone Management (ICZM) in the Black Sea

### IMPLEMENTATION AUDIT QUESTIONNAIRE 2010

#### PURPOSE

The purposes of this questionnaire are:

- (a) to perform the policy, legal and institutional stock-take as the basis for the future implementation of the ICZM;
- (b) to support the aim of PEGASO project funded under the EU's Framework 7 Programme to build on existing capacities and develop common novel approaches to support integrated policies for the coastal, marine and maritime realms of the Black Sea Basin in ways that are consistent with and relevant to the development of the ICZM Guidelines for the Black Sea.

#### INSTRUCTIONS

This audit questionnaire is to be completed for all Mediterranean and Black Sea countries.

1. Articles of ICZM Protocol for the Mediterranean are provided for information purposes to illustrate the questions.
2. Please provide details on the person completing the questionnaire on the "Respondent Details" sheet as well as the person validating the questionnaire (e.g. Focal Point or other responsible national official) on the "Validation Details" sheet.
3. Respondents may only enter data and information into the white cells of the questionnaire. Text boxes accept a maximum of 2000 characters (approx. 300 words). The green area is 'locked'.
4. Please provide a simple 'X' response to ALL questions in the relevant **YES, NO, P** or **N/A** columns.  
**P** = Partially completed **N/A** = Not Applicable
5. If required, please expand your responses in the boxes provided including comments regarding the level of implementation or efficiency/effectiveness of the measures listed.
6. Any supporting documentation should be clearly linked to the relevant question.
7. Please add any information you consider relevant for your country, Mediterranean or Black Sea regions.

## GEOGRAPHICAL COVERAGE

**Has the landward and/or seaward limit of your coastal zone been legally defined at a national scale?**

YES	NO	P	N/A
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Definition used, kind of legal instrument, supporting maps etc:

### Article 3 GEOGRAPHICAL COVERAGE

1. The area to which the Protocol applies (...) is (...) defined by:

- (a) the seaward limit of the coastal zone, which shall be the external limit of the territorial sea of Parties; and
- (b) the landward limit of the coastal zone, which shall be the limit of the competent coastal units as defined by the Parties.

2. If, within the limits of its sovereignty, a Party establishes limits different from those envisaged in paragraph 1 of this Article, it shall communicate a declaration to the Depositary at the time of the deposit of its instrument of ratification, acceptance, approval of, or accession to this Protocol, or at any other subsequent time, in so far as:

- (a) the seaward limit is less than the external limit of the territorial sea;
- (b) the landward limit is different, either more or less, from the limits of the territory of coastal units as defined above, in order to apply, inter alia, the ecosystem approach and economic and social criteria and to consider the specific needs of islands related to geomorphological characteristics and to take into account the negative effects of climate change.

## ICZM Legislation

**Has national legislation for ICZM or a Coastal Law been approved?**

Title or citation of statute, summary of main articles, current status etc:

## COORDINATION

Have bodies or mechanisms of institutional coordination been established at the national, regional and local levels for the purposes of ICZM in the following categories?

**a. Between the marine and land parts of the coast**

YES	NO	P	N/A
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Describe type of body, titles, legal status etc:

### Article 7 COORDINATION

1. For the purposes of integrated coastal zone management, the Parties shall:

- (a) ensure institutional coordination, where necessary through appropriate bodies or mechanisms, in order to avoid sectoral approaches and facilitate comprehensive approaches;
- (b) organize appropriate coordination between the various authorities competent for both the marine and the land parts of coastal zones in the different administrative services, at the national, regional and local levels;
- (c) organize close coordination between national authorities and regional and local bodies in the field of coastal strategies, plans and programmes and in relation to the various authorizations for activities that may be achieved through joint consultative bodies or joint decision-making procedures.

2. Competent national, regional and local coastal zone authorities shall, insofar as practicable, work together to strengthen the coherence and effectiveness of the coastal strategies, plans and programmes established.

# COORDINATION

Have bodies or mechanisms of institutional coordination been established at the national, regional and local levels for the purposes of ICZM in the following categories?

**b. Horizontally between different services and other organisations at the same administrative or geographical level**

YES	NO	P	N/A
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

For example: inter-ministerial committees, local coastal fora, transboundary partnerships.

# COORDINATION

Have bodies or mechanisms of institutional coordination been established at the national, regional and local levels for the purposes of ICZM in the following categories?

**c. Vertically between different services and other organisations at different administrative or geographical levels**

YES	NO	P	N/A
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

For example: formal or informal coordinating groups including organisations from national, regional and local level.

## PROTECTION AND SUSTAINABLE USE OF THE COASTAL ZONE

**Has a setback zone where construction is not allowed been legally established?**

YES	NO	P	N/A
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Legal instruments, coastal law or planning policy:

### Article 8 PROTECTION AND SUSTAINABLE USE OF THE COASTAL ZONE

1.(...) the Parties shall endeavour to ensure the sustainable use and management of coastal zones in order to preserve the coastal natural habitats, landscapes, natural resources and ecosystems, in compliance with international and regional legal instruments.

2. For this purpose, the Parties:

(a) Shall establish in coastal zones, as from the highest winter waterline, a zone where construction is not allowed. Taking into account, inter alia, the areas directly and negatively affected by climate change and natural risks, this zone may not be less than 100 meters in width, subject to the provisions of subparagraph (b) below. Stricter national measures determining this width shall continue to apply.

(b) May adapt, in a manner consistent with the objectives and principles of this Protocol, the provisions mentioned above :

1) for projects of public interest;

2) in areas having particular geographical or other local constraints, especially related to population density or social needs, where individual housing, urbanisation or development are provided for by national legal instruments.

(...)

# PROTECTION AND SUSTAINABLE USE OF THE COASTAL ZONE

**Have other existing measures been adapted in a manner consistent with the objectives and principles of integrated management of the coastal zone?**

YES	NO	P	N/A
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

For example: spatial planning, by-laws, local decrees, other zoning tools, waivers.

# PROTECTION AND SUSTAINABLE USE OF THE COASTAL ZONE

Do national legal instruments include one of the following measures or criteria for sustainable use of the coastal zone?

**(a) identifying and delimiting areas in which urban development and other activities are restricted or, where necessary, prohibited**

YES	NO	P	N/A
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Illustrate with the type of mechanisms:

Article 8 PROTECTION AND SUSTAINABLE USE OF THE COASTAL ZONE (Continued)

3. The Parties shall also endeavour to ensure that their national legal instruments include criteria for sustainable use of the coastal zone. Such criteria, taking into account specific local conditions, shall include, inter alia, the following:

- (a) identifying and delimiting, outside protected areas, open areas in which urban development and other activities are restricted or, where necessary, prohibited;
- (b) limiting the linear extension of urban development and the creation of new transport infrastructure along the coast;
- (c) ensuring that environmental concerns are integrated into the rules for the management and use of the public maritime domain;
- (d) providing for freedom of access by the public to the sea and along the shore;
- (e) restricting or, where necessary, prohibiting the movement and parking of land vehicles, as well as the movement and anchoring of marine vessels, in fragile natural areas on land or at sea, including beaches and dunes.

## PROTECTION AND SUSTAINABLE USE OF THE COASTAL ZONE

Describe:

### Article 9 ECONOMIC ACTIVITIES

1. In conformity with the objectives and principles set forth in Articles 5 and 6 of this Protocol, and taking into account the relevant provisions of the Barcelona Convention and its Protocols, the Parties shall:

- (a) accord specific attention to economic activities that require immediate proximity to the sea;
- (b) ensure that the various economic activities minimize the use of natural resources and take into account the needs of future generations;
- (c) ensure respect for integrated water resources management and environmentally sound waste management;
- (d) ensure that the coastal and maritime economy is adapted to the fragile nature of coastal zones and that resources of the sea are protected from pollution;
- (e) define indicators of the development of economic activities to ensure sustainable use of coastal zones and reduce pressures that exceed their carrying capacity;
- (f) promote codes of good practice among public authorities, economic actors and non-governmental organizations.

# SPECIFIC COASTAL ECOSYSTEMS, LANDSCAPES & CULTURAL HERITAGE

Are measures in place in coastal strategies and coastal plans and programmes and when issuing authorizations to protect the characteristics of the following specific coastal ecosystems?

## 1. Wetlands

(a) Are measures in place to regulate or, if necessary, prohibit activities that may have adverse effects on wetlands and estuaries?

## CULTURAL HERITAGE

**Have appropriate measures to preserve and protect the coastal cultural heritage including the underwater heritage been taken?**

YES	NO	P	N/A
<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Type of measure:

### Article 13 CULTURAL HERITAGE

- 1. The Parties shall adopt, individually or collectively, all appropriate measures to preserve and protect the cultural, in particular archaeological and historical, heritage of coastal zones, including the underwater cultural heritage, in conformity with the applicable national and international instruments.*
- 2. The Parties shall ensure that the preservation in situ of the cultural heritage of coastal zones is considered as the first option before any intervention directed at this heritage.*
- 3. The Parties shall ensure in particular that elements of the underwater cultural heritage of coastal zones removed from the marine environment are conserved and managed in a manner safeguarding their long-term preservation and are not traded, sold, bought or bartered as commercial goods.*

# PARTICIPATION

Are the following measures used to ensure the involvement of stakeholders in:

- the formulation and implementation of coastal and marine strategies, plans and programmes or projects,
- the issuing of authorizations?

*Article 14 PARTICIPATION*

1. With a view to ensuring efficient governance throughout the process of the integrated management of coastal zones, the Parties shall take the necessary measures to ensure the appropriate involvement in the phases of the formulation and implementation of coastal and marine strategies, plans and programmes or projects, as well as the issuing of the various authorizations, of the various stakeholders, including:

- the territorial communities and public entities concerned;
- economic operators;
- non-governmental organizations;
- social actors;
- the public concerned.

Such participation shall involve inter alia consultative bodies, inquiries or public hearings, and may extend to partnerships.

*Article 15 AWARENESS-RAISING, TRAINING, EDUCATION AND RESEARCH*

- 1. The Parties undertake to carry out, at the national, regional or local level, awareness-raising activities on integrated coastal zone management and to develop educational programmes, training and public education on this subject.*
- 2. The Parties shall organize, directly, multilaterally or bilaterally, or with the assistance of the Organization, the Centre or the international organizations concerned, educational programmes, training and public education on integrated management of coastal zones with a view to ensuring their sustainable development.*
- 3. The Parties shall provide for interdisciplinary scientific research on integrated coastal zone management and on the interaction between activities and their impacts on coastal zones. To this end, they should establish or support specialized research centres. The purpose of this research is, in particular, to further knowledge of integrated coastal zone management, to contribute to public information and to facilitate public and private decision-making.*

- 1. Each Party shall further strengthen or formulate a national strategy for integrated coastal zone management and coastal implementation plans and programmes consistent with the common regional framework and in conformity with the integrated management objectives and principles of this Protocol (...).*
- 2. The national strategy, based on an analysis of the existing situation, shall set objectives, determine priorities with an indication of the reasons, identify coastal ecosystems needing management, as well as all relevant actors and processes, enumerate the measures to be taken and their cost as well as the institutional instruments and legal and financial means available, and set an implementation schedule.*
- 3. Coastal plans and programmes, which may be self-standing or integrated in other plans and programmes, shall specify the orientations of the national strategy and implement it at an appropriate territorial level, determining, inter alia and where appropriate, the carrying capacities and conditions for the allocation and use of the respective marine and land parts of coastal zones.*
- 4. The Parties shall define appropriate indicators in order to evaluate the effectiveness of integrated coastal zone management strategies, plans and programmes, as well as the progress of implementation of the Protocol.*

### Article 22 NATURAL HAZARDS

*Within the framework of national strategies for integrated coastal zone management, the Parties shall develop policies for the prevention of natural hazards. To this end, they shall undertake vulnerability and hazard assessments of coastal zones and take prevention, mitigation and adaptation measures to address the effects of natural disasters, in particular of climate change.*

### Article 23 COASTAL EROSION

- 1. In conformity with the objectives and principles set out in Articles 5 and 6 of this Protocol, the Parties, with a view to preventing and mitigating the negative impact of coastal erosion more effectively, undertake to adopt the necessary measures to maintain or restore the natural capacity of the coast to adapt to changes, including those caused by the rise in sea levels.*
- 2. The Parties, when considering new activities and works located in the coastal zone including marine structures and coastal defence works, shall take particular account of their negative effects on coastal erosion and the direct and indirect costs that may result. In respect of existing activities and structures, the Parties should adopt measures to minimize their effects on coastal erosion.*
- 3. The Parties shall endeavour to anticipate the impacts of coastal erosion through the integrated management of activities, including adoption of special measures for coastal sediments and coastal works.*
- 4. The Parties undertake to share scientific data that may improve knowledge on the state, development and impacts of coastal erosion.*
